§ 150.25 Amending the operations manual.

(a) Whenever the cognizant COTP finds that the operations manual does not meet the requirements of this part, the COTP notifies the licensee, in writing, of the inadequacies in the manual.

(b) Within 45 days after the notice under paragraph (a) of this section is sent, the licensee must submit written proposed amendments to eliminate the inadequacies.

(c) The cognizant COTP reviews the amendments and makes a determination as to the adequacy of the amendments and notifies the licensee of the determination.

(d) If the COTP decides that an amendment is necessary, the amendment goes into effect 60 days after the COTP notifies the licensee of the amendment.

(e) The licensee may petition the Commandant (G-M), via the appropriate district office, to review the decision of the COTP. In this case, the effective date of the amendment is delayed pending the Commandant's decision. Petitions must be made (in writing) and presented to the COTP for forwarding to the Commandant (G-M).

(f) If the COTP finds that a particular situation requires immediate action to prevent a spill or discharge, or to protect the safety of life and property, the COTP may issue an amendment effective on the date that the licensee receives it. The COTP must include a brief statement of the reasons for the immediate amendment. The licensee may petition the District Commander for review, but the petition does not delay the effective date of the amendment.

§ 150.30 Proposing an amendment to the operations manual.

(a) The licensee may propose an amendment to the operations manual:

(1) By submitting (in writing) the amendment and reasons for the amendments to the COTP not less than 30 days before the requested effective date of the amendment; or

(2) If the amendment is needed immediately, by submitting the amendment, and reasons why the amendment is needed immediately, to the COTP in writing.

§ 150.35 How may an adjacent coastal State request an amendment to the operations manual?

(a) An adjacent coastal State connected by pipeline to the deepwater port may petition the cognizant COTP to amend the operations manual. The petition must include sufficient information to allow the COTP to reach a decision concerning the proposed amendment.

(b) After the COTP receives a petition, the COTP requests comments from the licensee.

(c) After reviewing the petition and comments, and considering the costs and benefits involved, the COTP may approve the petition if the proposed amendment will provide equivalent or improved protection and safety. The adjacent coastal State may petition the Commandant (G-M) to review the decision of the COTP. Petitions must be made in writing and presented to the COTP for forwarding to the Commandant (G-M) via the District Commander.

§ 150.40 Deviating from the operations manual.

If, because of a particular situation, the licensee needs to deviate from the operations manual, the licensee must submit a written request to the COTP explaining why the deviation is necessary and what alternative is proposed.
